

GlobeHeat Datasheet : Product Code GHT 9314

Product Description: Six Way, 1m Compensating Cable Link Set

A set of six, one metre lengths of compensating cable with a type K thermocouple plug at each end.

Applications

To connect six channel programmers or temperature recorders to heat treatment units.

Specification	
Thermocouple plugs	Twelve type K yellow plugs
Number of links cables	Six
Length of link cables	1m
Compensating cable Type	KCB
Construction of cable conductors	Thirteen strands of 0.2mm OD thermocouple alloys.
Positive conductor material	Copper with white insulation
Negative conductor material	Constantin with blue insulation
Insulation of cable conductors	PVC extruded with high temp PVC (white / blue)
General construction of compensating cable	Insulated pair laid flat with overall outer sheath insulation
Outer sheath insulation of compensating cable	High temp. PVC extruded overall (Red)
Insulation maximum operating temperature of cable	105°C
Compensating cable Standards	BS 4937, BS 6746 and relevant parts, of BSEN 60584.2
